Automatic Gun Detection:
A Solution for Security, Risk Management and Law Enforcement Personnel.

From one to many cameras we scale to meet your needs.

Our gun detection capability was developed for the US Army, and provides an effective, proactive solution to identify guns without shots being fired.
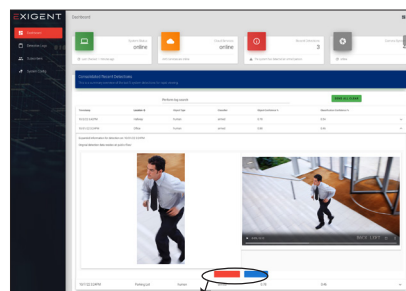

We offer the capability to:

DETECT — autonomously detect a person with a gun as early as possible, without shots being fired.

IDENTIFY — instantly analyze imagery to identify the person with the gun.

ALERT — our gun detection capability interfaces with your camera alert capability to provide information to the user.
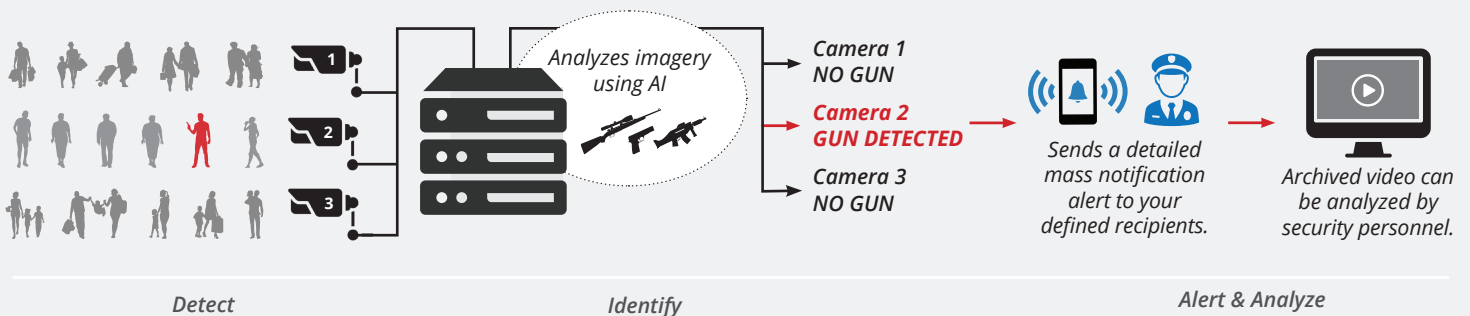

ANALYZE — provide video playback capability for law enforcement investigation.

Red = send mass alert
Blue = send alert to select group

How It Works

Analyzes imagery using AI

Camera 1
NO GUN

**Camera 2
GUN DETECTED**

Camera 3
NO GUN

Sends a detailed mass notification alert to your defined recipients.

Archived video can be analyzed by security personnel.

Detect *Identify* *Alert & Analyze*

Augment your current security system with automatic gun detection.

We integrate with your existing cameras to provide automatic gun detection. We also integrate with your mass notification system to send alerts or we can provide mass notification.

SECURITY / OPERATION / TRAINING
Security features include role-based login, application authentication and message encryption.

Once integrated with your camera, facility power and internet it begins monitoring for guns.

Training is provided. A user manual is provided and call center support is available.

LOGISTICS & LICENSING
Annual Maintenance provided through an annual cost.

PRODUCT DETAILS

Manufacturer	Exigent
Product Name	GoDeep®
Version	2022
Part Number	GD-GR-2024
Delivery Method	Shipped via standard shipping (USPS, Fedx, etc.)

SYSTEM REQUIREMENTS

Power	Computer operates off of facility 110V power
Internet Access	Connects to the Internet via the facility network

Revolutionize your business with Exigent®-GR.
